

Contact Lens
Eye Of Seduction

E.O.S Co., Ltd.

**A company recognized
by its technologies,
A company opening up
a bright future.**

Established in 2002, E.O.S contact lens manufacturing company, is a global company that manufactures and supplies 'Color Soft Contact Lenses' that improves vision and beautiful eyes.

The company values respect for humans and quality management.

Based on experts' research and passion, E.O.S provides the best products to customers.

Based on growing trust, E.O.S has been recognized for its conformity with quality control standards including a certification for producing medical devices by the Ministry of Food and Drug Safety.

Also, it introduced a quality management system for the best quality products, obtaining certifications from KGMP, ISO13485, CE, and MDSAP, these have made E.O.S gain trust from customers.

E.O.S has applied for a patent for a contact lens manufacturing technique and has been selected as Venture company, Promising Export Firm, MAIN BIZ company, establishing itself as a leading company.

Growing based on customers' trust and love, E.O.S has been exporting to more than 50 countries around the world including Asia, America, and Europe, enhancing its global market competitiveness.

E.O.S creates healthy beauty for your brilliant days ahead

The perfect combination of technology and design provides contact lens that is perfect for your eyes and life.

Its hydrophilic nature keeps your eyes moist, allowing you to have shining eyes and enjoy a comfortable fit.

E.O.S Lens's stylish designs and the wide range of colors will bring out the beauty of the eyes more naturally. And its cool and unique designs not confined in a stereotyped convention will help you become sparkle in a special moment.

All of the contact lens produced by E.O.S are manufactured under the made-order system. That's the reason why E.O.S can promise the best vision with the variety of the designs.

E.O.S's technology and products trusted by customers will make you shine more than you would expect.

This is why our products are always perfect

E.O.S applies advanced quality management techniques for quality management and runs robust manufacturing lines based on excellent manufacturing technologies.

In addition, E.O.S's R&D center is committed to develop new technologies, materials, and color lens designs that meet the needs of customers.

All products of E.O.S are produced by special method-Casting Mold.

Products made with casting mold method prevent direct contact of the pigment to the cornea, making your eyes more comfortable and healthier.

Lenses manufactured with the best technology must pass their own rigorous quality tests. Only the products that pass the test shall be given the name of E.O.S.

Features of Casting Mold Method

All products of E.O.S are produced by Casting Mold Method.

It is a method of producing contact lens using molds in the form of both sides of a lens.

Place the raw materials in an outer mold, and then place the upper mold on it to make a shape of the lens.

It is recognized as the most complicated and fine method of contact lens production to make safe and comfortable products.

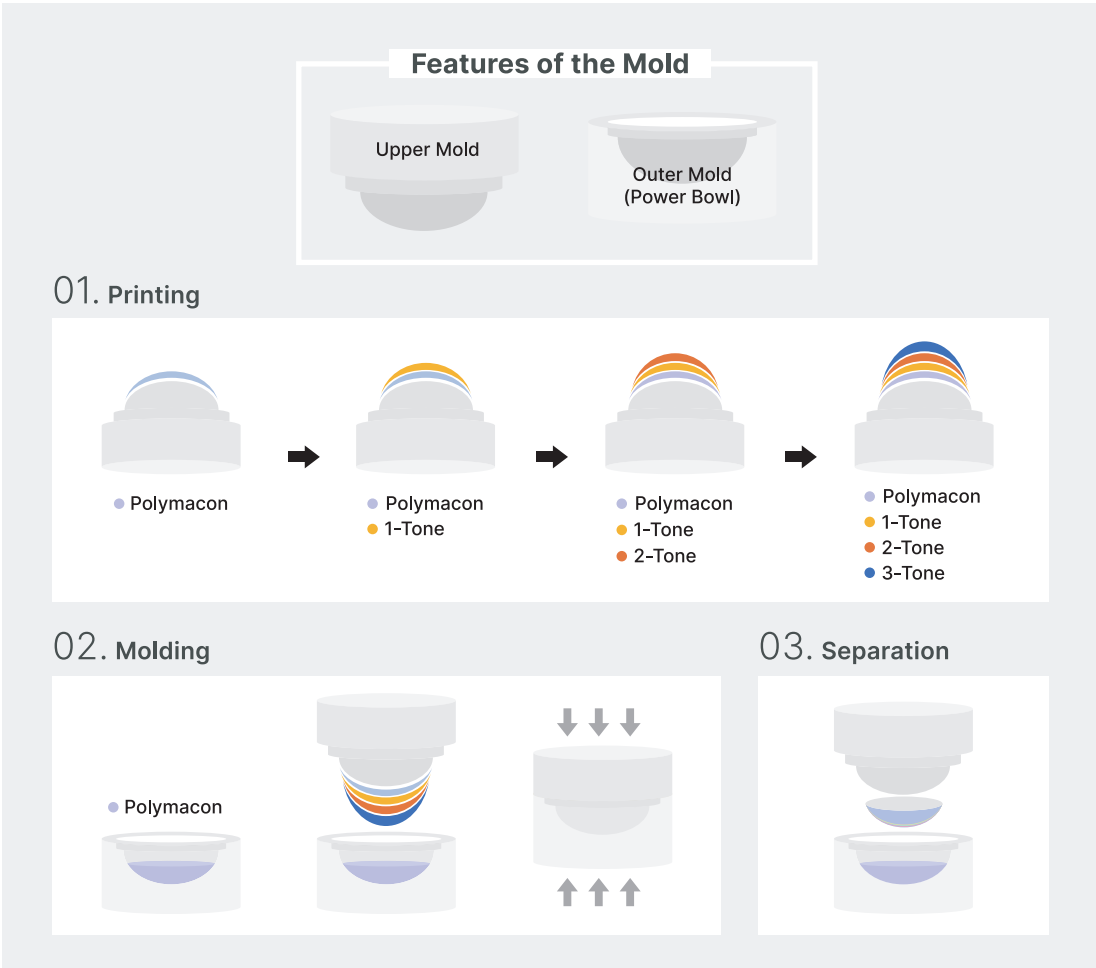

Products manufactured with a stabilized casting mold method have very low probability of errors and inconsistencies in manufacturing, so it delivers excellent optical functionality and its smooth surface will provide users comfortable feelings while wearing contact lenses.

Color contact lenses of E.O.S are manufactured by printing pigments onto upper molds prior to molding process.

With leading-edge technology of E.O.S., a thin raw material membrane is coated, before printing pigments onto upper molds.

It prevents direct contact of the pigment to the cornea and making the eyes more comfortable and healthier.

Explanation

Company Achievement

Medical Device Certificate of E.O.S Co., Ltd.

- Korea, Good Manufacturer Practice Conformity(MFDS)
- EN ISO 13485, Quality Management System(EU Notified Body, SGS United Kingdom Ltd.)
- Europe MDD(CE), Quality Assurance System(EU Notified Body, SGS Belgium Ltd.)
- Japan, Quality Management System Conformity(PMDA)
- Canada, Medical Device License(Health Canada)
- Russia, Medical Device Registration(Roszdravnadzor)
- Malaysia, Medical Device Registration(MDA)
- Saudi Arabia, Medical Device Marketing Authorization(MDMA)
- Thailand, Medical Device License(Thai_FDA)
- Singapore Medical Device Registration(HSA)
- Medical Device Single Audit Program(Auditing Organization, SGS United Kingdom Ltd.)

Product OverView

Common Name	Soft Contact Lens, daily wear (GMDN code: 33937)
Intended Use	A hydrophilic soft contact lens composed of 2-HEMA attached directly to the eyeball as a vision corrector, a myopic unifocal lens for daily use with water content of 38%

Specifications

Material	Polymacon 2-HEMA (2-Hydroxyethylmethacrylate) EGDMA (Ethylene glycol dimethacrylate)			
Water Contents	38%			
Dioptr(SPH)	0.00D ~ -5.50D (0.25D Steps) -5.50D ~ -10.00D (0.50D Steps)			
Diameter (DIA)	14.0mm	14.2mm	14.5mm	15.0mm
Base Curve (B.C)	8.6mm	8.7mm	8.8mm	8.8mm or 9.2mm

- 2002. 12. — Established E.O.S Co., Ltd.
- 2003. 01. — Korea Food & Drug Administration, product item permit [EOS]
- 2003. 01. — Medical appliances manufacturing permit (No.1540)
- 2003. 12. — Designated as a most promising enterprise on the “2003 New Technology, New Promising Enterprise” Exhibition initiated by Sports Seoul Newspaper
- 2004. 07. — Korea Food & Drug Administration, product item permit [EOS II]
- 2004. 08. — Sponsored a color contact lens to MBC serial soap opera [Crime and Punishment]
- 2007. 04. — Started export to JAPAN
- 2008. 06. — Secured ISO 13485
- 2009. 01. — Secured CE
- 2009. 03. — Small & Medium Business Administration, designated “Exportoriented firm” business for 2009
- 2009. 04. — Small & Medium Business Administration, designated “Management-innovative small & medium-sized firm”
- 2009. 04. — Factory expansion, transfer (98-5 Dongho-Dong, Dong-Gu, Daegu Metropolitan City)
- 2009. 06. — Small & Medium Business Administration, designated “Promising Export Firm”
- 2011. 03. — Secured Sales permit in Japan
- 2012. 03. — Secured ‘Venture Business’
- 2013. 02. — Awarded “\$3million Export Tower” (KITA_Korea International Trade Association)
- 2013. 03. — Small & Medium Business Administration, designated “Export-oriented firm business for 2013”
- 2013. 03. — Registration of medical devices for Russia
- 2014. 02. — Small & Medium Business Administration, designated “MAIN-BIZ”
- 2014. 07. — Small & Medium Business Administration, designated “Promising Export Firm”
- 2014. 11. — Secured Sales permit in Canada
- 2015. 06. — Secured Sales permit in Saudi Arabia MDMA
- 2015. 07. — Daegu Metropolitan City, designated “Certificate of Appointment as a Star Company”
- 2015. 07. — Secured Sales permit in Malaysia
- 2015. 10. — Secured Sales permit in Brazil ANVISA
- 2016. 01. — Awarded “\$5million Export Tower” (KITA_Korea International Trade Association)
- 2016. 02. — Secured Sales permit in Australia
- 2016. 03. — Secured “Venture Business”
- 2016. 04. — Secured Sales permit in Singapore
- 2016. 05. — Completed Yuram Factory
- 2017. 03. — Small & Medium Business Administration, designated “MAIN-BIZ”
- 2017. 07. — Secured Sales permit in Thailand
- 2018. 11. — Presented with the Best Small & Medium Enterprise Award 2018
- 2019. 02. — Secured ISO 13485:2016 , MDSAP
- 2019. 07. — Secured MDSAP (ISO 13485:2016)
- 2019. 12. — Patent registration “Contact Lens UV Survey Device” No. 10-2041785
- 2019. 12. — Patent registration “Manufacturing Method of Natural Color Contact Lenses Using UV Light” No. 10-2062886
- 2020. 09. — Secured “Confirmation of Companies Specializing in Materials, Parts, and Equipment”
- 2020. 09. — Completed new smart factory construction
- 2022. 07. — Smart Factory Advancement Project Selection in Progress
- 2024. 06. — Selection of Small and Medium-sized Enterprises
